

DL-2 Series

The enLux LED DL-2 TC Down Light Tapered Cone Trim Series is a smart choice for institutional and commercial indoor general illumination. DL-2 down light is 2 times more efficient than PL and CFL. They are practical, meaningful and affordable.

Flexible

The patented DL-2 TC series down light is available in two mount versions - drop ceiling mount and sheetrock ceiling mount. This luminaire is specifically designed for illuminating offices, hospitals, retail stores, educational facilities or commercial buildings. The DL-2 LED module uses patented RYgB light emission technology delivering vivid color rendering for the objects illuminated.
